EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stuart L. Smith on 8/7/2006.

The application has been amended as follows:

In claim 6, the dependency has been changed from [[claim 4]] to claim 5

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or suggest the combination that would teach a gas pressure switch for an ignition and safety system for ammunition comprising a piston actuator, the piston actuator being displaceable from a idle (switch open) position to a contacting (switch closed) position by propellant gases of the ammunition during use; two contact pins fixedly attached to the switch housing; a contacting device operatively associated with the piston actuator and located on a first side of the piston, the first side being opposite the piston's second side on which the propellant gases act during use, the contacting device connecting electrically to the contact pins when the piston is in the contacting (switch closed) position; and a locking pin which holds the piston in the idle

(switch open) position until a predetermined gas pressure is reached, which pressure shears the locking pin so the piston is displaceable into the contacting (switch closed) position .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).
